

# Admira **Spaces**

Smart management of  
spaces and appointments

**Admira Spaces** is the new manager of the Admira Platform for corporate spaces and appointment services. It is aimed to optimize the spaces and material resources of our organization in an interactive and dynamical way, as well as keep the hygiene measures in their use.

It is designed to be used with **smart digital signage devices**, which enriches the user experience and reduces the feeling of waiting. At customer service points, this translates into customer loyalty and an increasing sales.

The integration into the Admira Platform exponentially **multiplies the functions and possibilities of use**. Taking advantage of the other tools from the Admira ecosystem, it becomes an advanced business and commercial intelligence solution.

### Your facilities organized in an efficient and sustainable way

You can organize your spaces in buildings, plants and rooms. Ideal for companies with large and numerous facilities.

### All the security from Admira Platform

Highest access control through user roles and permissions. Authorize access only to the users you need.

### All your resources managed in one place

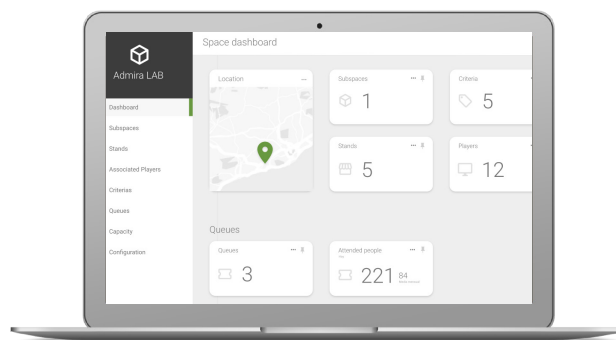

Identify the resources available in your spaces (rooms, tables, service points) and define the services (course, exhibition, attendance...), as well as their available hours or maximum capacity.

### Maximum control of your meetings and appointments

Schedule all kinds of space reservations and appointments with your staff. Ensure the maximum use of your human and material resources.

### maximum customization and flexibility

Customizable interface with your corporate identity. Integrable on-screen display with digital signage content.

### Interactive mapping of your facilities

Mapping system of the spaces and resources of your organization. Create interactive maps and directories for your users.

**Admira Spaces** is the new manager of the Admira Platform for corporate spaces and appointment services. It is aimed to optimize the spaces and material resources of our organization in an interactive and dynamical way, as well as keep the hygiene measures in their use.

It is designed to be used with **smart digital signage devices**, which enriches the user experience and reduces the feeling of waiting. At customer service points, this translates into customer loyalty and an increasing sales.

# A business and commercial intelligence solution

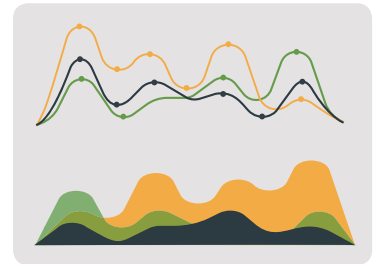

## Digital Signage

- Corporate information to boost the brand
- Promotions and offers to promote cross-selling and up-selling
- Indoor and outdoor advertising for external advertisers
- Info-entertainment to reduce the feeling of waiting

## Analytics

- Estimation of waiting times for users
- Identification and demographic analysis of users and clients
- Information and hypersegmented advertising
- Performance analysis of customer attendance stands

## Health prevention

- Social distancing between waiting users
- Temperature control of users before access
- Wearing a mask by waiting users
- Capacity control to avoid overcrowding

## Maximum flexibility and compatibility for your project

Admira solutions have been built to be flexible and customizable, and adapt to any type of project or circuit. For this reason, Admira Space is hardware-agnostic, it can work with the main brands and operating systems on the market: screens, players, cameras, sensors...
